Profile

I am a creative. I work on projects that need that extra spark, something special - from advertisements and feature films to live events. I love to pitch and collaborate with other like-minded artists. I experiment constantly and believe that great work comes from pure thought and hard work.

Experience

Creative Director

Boeing 787 Dreamliner 1st Delivery

I was hired by the Goalen Group to help create a once-in-a-lifetime event for the delivery of the Boeing 787 Dreamliner to be held at the Future of Flight in Everett, WA. I produced, directed, and edited / animated all the content for the event, which included two 6min videos, reception image gallery, projection mapping ANA's logo onto a 777 vertical fin and a multi-plasma display gallery. I also designed and choreographed the light show for the reveal of the 787 Dreamliner. All in all, this was one spectacular event.

Red Bull: Toll-Free Tales 1-3

In 2008 I got a call from Red Bull asking me what I thought of their "Drunk Dials" (people that leave crazy, random messages on their voicemail). I felt an immediate connection to these wacky calls and pitched them an idea of creating small, vignette animations based off of the best calls. Toll-Free Tales was born. Over the years, I have completed over 35 animations for Red Bull and am still surprised to this day what people will say in a voice message.

Director

Commercials, Corporate Videos, Web Videos

I have been hired to direct a variety of projects by ad agencies, production companies, and corporate clients. Some clients I have directed for include: Boeing, Alcatel-Lucent, Vans, Arby's, LG Electronics, Tiger Electronics, Krystal's, Sony and Bio Spot.

Editor

Commercials, Corporate Videos, Feature Films, TV Shows, Web Videos

I have been hired to edit a variety of projects by tv networks, production companies, ad agencies, and corporate clients. Some clients that I have edited for include: NFL Network, The Tennis Channel, HD Net, Arby's, ESPN, RBC Centura, Lowe's, SC Tourism, NC State Lottery, TV Guide Channel, Travelocity and Fox Sports Net.

Designer

Commercials, Corporate Videos, Web Videos, Live Events

I design and create motion graphics for what I direct / edit. I also design backgrounds and animations for multi-screen live events (to be streamed via WatchOut). Some clients that I have designed for include: Boeing, Arby's, The Tennis Channel, Fox Sports Net, Krystal's, LG Electronics, Alcatel-Lucent and Power Bar.

Education

The Savannah College of Art & Design — BFA Film & Television 2003

Skills

Building & managing creative teams, strategic creative planning, client management, budgeting and an inexhaustible commitment to finding solutions that generate results. Tools that I use: Adobe CS Suite, FCP Suite, Avid, Broadcast VTR's and Cameras (5D, 7D, RED, AG100).
